

We'd love to  
have you join  
us.

Are you looking to learn more about gardening in the mountains? Do you have questions about soil, drought tolerant plants, pest control (is this really possible?) and bringing birds and butterflies into our yards?

# Frozen Green Thumb Garden Club

"Gardening in the mountains is always a challenge. It's so great being able to learn from others what has worked and what has not"

## Join Us

Local mountain gardening tips bring us together as The Frozen Green Thumb Gardening Club meets each month to learn, share and discuss ways to plant, prune and plan projects for the beautification of our community.

### Learning

There is so much to know about growing and gardening in our beautiful mountain canyon. We meet on the third Monday of the month in various locations beginning at 11:30am. Each month we have a mountain garden focused presentation, discuss your plant concerns as well as potential or ongoing beautification projects happening around town. Members receive an email reminder the week before the meeting that includes the topic for the next meeting.

### Field Trips

Sometimes our topics require a road trip to find out new information. Nurseries, Botanical Gardens, and special flower farms offer a perspective we just can't get at home.

### Fundraising

The Frozen Green Thumb Garden Club supports our local organizations. Throughout the year we have different events, such as plant and bake sales to help raise funds to contribute to the success of these organizations. We ask all members to join in, it's FUN, and your participation makes a huge difference.

### Annual Dues

All members pay annual dues at the end of each May. Dues paid after March 1 apply to the coming year's dues.

## Our Purpose

The beautification of our canyon and the education of our residents to the pleasures and rewards of gardening.

- Community Service
- Fun while learning
- Getting to know our neighbors
